

Ideation Phase

Empathize & Discover

Date	04 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map captures what users think, feel, see, hear, say and do. It helps understand stakeholders who use the Human Development Index (HDI) prediction system.

What does the user THINK & FEEL?

- Wants accurate HDI predictions
- Wants reliable development insights
- Needs easy interpretation

What does the user SEE?

- Countries with different HDI levels
- Health, education and income statistics
- Reports and dashboards

What does the user HEAR?

- Government policies
- UNDP development reports
- Research recommendations

What does the user SAY & DO?

- Compares countries
- Analyzes indicators
- Plans development strategies

Pain

- Manual analysis is time-consuming
- Difficult to combine multiple indicators
- Limited decision support

Gain

- Fast HDI prediction
- Better policy decisions
- Clear identification of development gaps
